

**Neskowin Preparedness Plan
Tillamook County, Oregon**

Earthquake/Tsunami

Goal: Enhance the safety of residents and visitors should a natural disaster occur.

Method: Education, training and communication to achieve both community awareness and support.

Objectives:

1. Provide direction to Neskowin area residents and visitors should a tsunami and/or earthquake occur.
2. Educate residents regarding this plan and the use of emergency notification systems, such as sirens and NOAA radios.
3. Develop and implement a comprehensive plan for response and evacuation, outlining methods of short and long-term survival.
4. Develop a hazard analysis and risk factors for other emergencies, which could affect the Neskowin area.

Local Earthquake/Tsunami

Ground shaking and/or ocean recedes—you have 12-30 minutes to walk to high ground.

Evacuation:

1. Do not delay.
2. Do not wait for official warning (sirens may not work).
3. Do not call 911.
4. Do not pack—take Emergency Kit.
5. Waves may last 12 hours, stay on high ground. Caution—trees, power lines, and bridges may be down.
6. Know the location of the Safe Assembly areas.

Safe Assembly Areas

(one mile inland, 80-100 foot elevation)

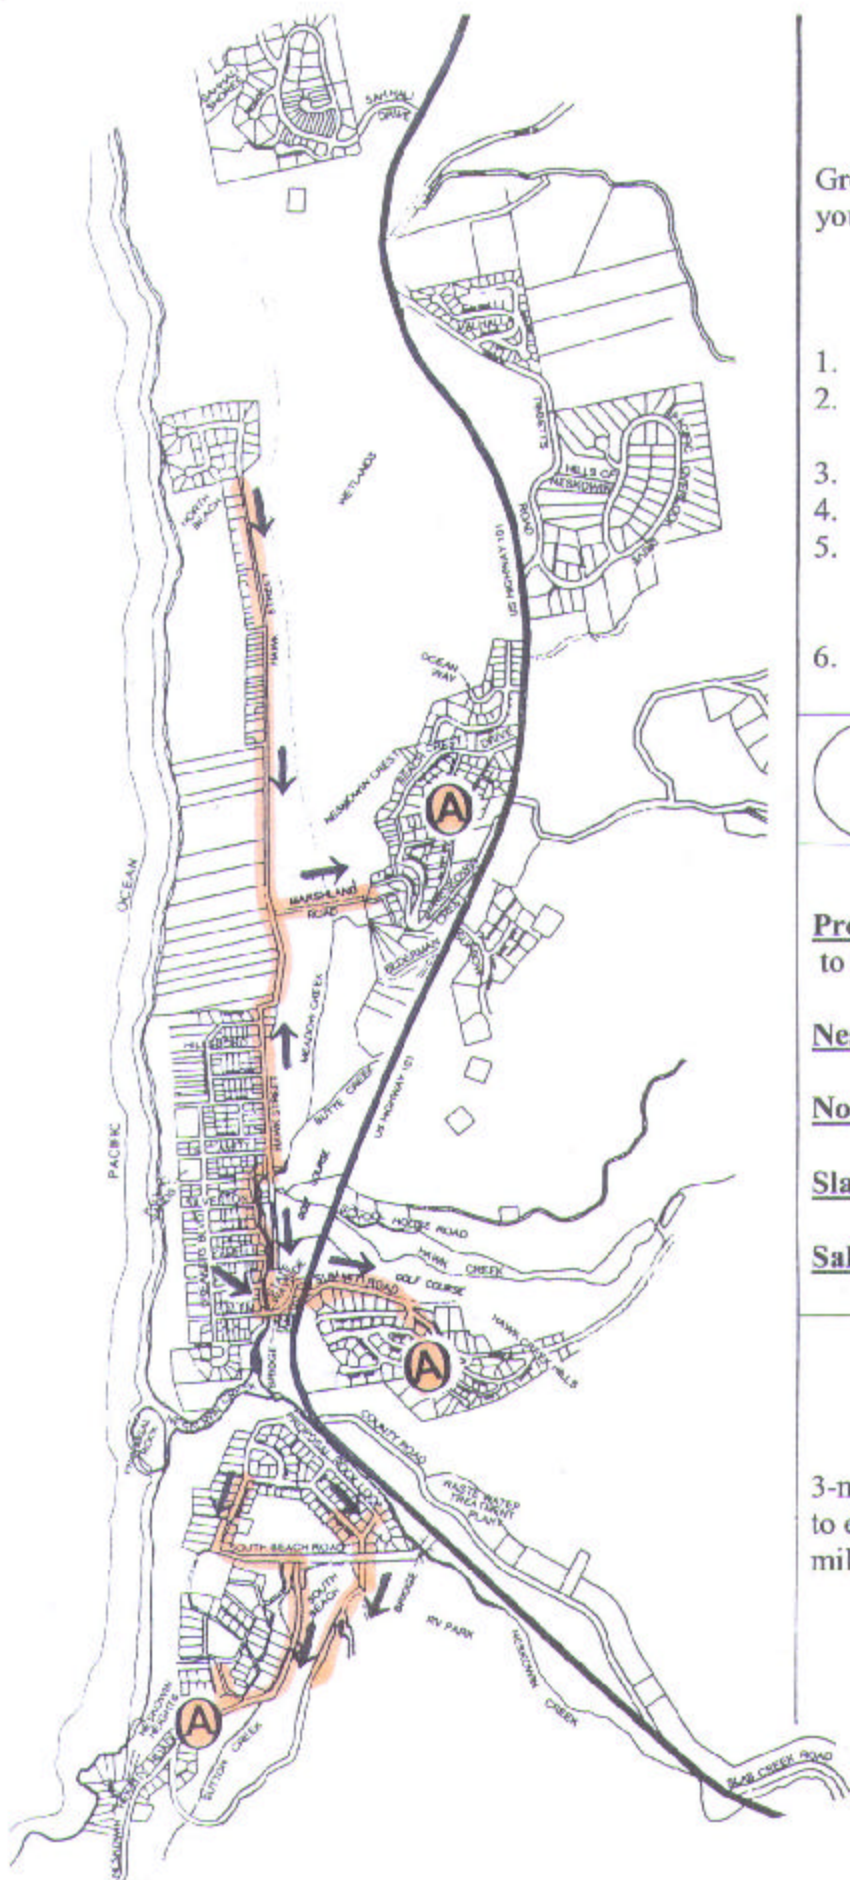

Proposal rock, South Beach, RV Park – to Ocean Ridge or up dirt road behind RV Park

Neskowin – to Hawk Creek Hills or Neskowin Crest

North Beach – to Neskowin Crest

Slab Creek – to high ground or one mile inland

Sahhali Shores – move to high ground by condos

Local Earthquake Tsunami

Ground shaking and/or ocean recedes -
you have 12 – 30 minutes to walk to high ground.

Evacuation

1. Do not delay
2. Do not wait for official warning (sirens may not work)
3. Do not call 911
4. Do not pack – take Emergency Kit
5. Waves may last 12 hours, stay on high ground.
Caution – trees, power lines, bridges may be down
6. Know the location of Safe Assembly areas.

A

Safe Assembly Areas

(one mile inland, 80 to 100 foot elevation)

Proposal Rock, South Beach, RV Park -
to Ocean Ridge or up dirt road behind RV Park

Neskowin – to Hawk creek Hills or Neskowin Crest

North Beach – to Neskowin Crest

Slab Creek – to high ground or one-mile inland

Sahhali Shores – move to high ground by condos

Distant Earthquake Tsunami

3-minute siren or NOAA radio alert - (1 to 4 hours
to evacuate) walk or drive to high ground or one
mile inland

72 Hour Emergency Preparedness Kit:

Storing emergency supplies before a disaster can add to your family's safety and comfort during a disaster. You should store enough supplies for at least 72 hours.

- First Aid Kit and reference guide
- Water – 1/2 gallon Drinking water per person per day
- Food (packaged, canned, no-cook items, candy, special diet needs)
- Can Opener (non-electric)
- Blankets or sleeping bags
- Fire Extinguisher (A-B-C type)
- Essential medications and eyeglasses
- Money – change for a pay phone
- Portable radio, flashlights, batteries, cell phone
- Alternate cooking source and matches
- Clothing – heavy gloves and sturdy shoes
- Spare keys – insurance #, company name and phone number
- Crescent wrench (12" or longer for utility shut off)

Recommendations for Car Kit;

- Blankets or sleeping bags
- Booster cables, tools, flares, flashlights and batteries
- Bottles water
- Canned fruits and nuts with can opener
- First Aid Kit and Red Cross Guide
- Candles and matches (water proof)
- Rain gear, walking shoes, hat, gloves, clothing

These recommendations are supported by the Red Cross and the State of Oregon for surviving disasters on the Oregon Coast:

Compliments of your Emergency Preparedness Committee.
